Applied Manufacturing Technology Program

Associate & Bachelor Degree Programs

UWA's Applied Manufacturing Technology Program is designed to teach basic skills that lead to high-wage and high skilled employment. These customized training programs in manufacturing skills and technologies will be delivered through the most up-to-date technology and equipment and methods using hybrid courses, on-line lectures, web applications, state-of-the-industry laboratories, and industry-based experiential learning.

Associate of Applied Science in Industrial Maintenance (60 hours)
The Industrial Maintenance Program offers to interested students a two year Associate of Applied Science Degree. The program is student-centered, career-oriented and designed to provide skills and knowledge necessary to meet the general maintenance demands of business, industry, and government agencies.

General Education Basic Curriculum 15 hours
Industrial Maintenance 45 hours

Bachelor of Science in Technology (120 hours)
The Bachelor of Science in Technology is specifically designed for transfer students with significant technical credit from a community college, trade school, or military service and capitalizes on skills already acquired. The BS in Technology is also available completely online.

General Education Basic Curriculum 50 hours
Technical 32-42 hours
Professional 24-27 hours
Internship 3-6 hours
Electives 0-8 hours
Total 120 hours
Bachelor of Science in Industrial Technology (123 hours)

The Technology Program’s mission is to prepare students for employment in supervision, and/or technical areas of industry, business, governmental, or service agencies.

- **General Education Basic Curriculum**: 50 hours
- **Business Professional Component**: 39 hours
- **Industrial Technology Major**: 30 hours
- **Electives**: 2-4 hours
- **Total**: 123 hours

Bachelor of Business Administration in Computer Information Systems (123 hours)

The Computer Information Systems Program offers to interested students a four year Bachelor of Business Administration Degree. The program is designed to prepare students for entry-level programming and information processing positions in business and government.

- **General Education Basic Curriculum**: 50 hours
- **Business Professional Component**: 39 hours
- **Major**: 30 hours
- **Electives**: 2-4 hours
- **Total**: 130 hours
