AT AUBURN UNIVERSITY

# Robotics Trainings June 2025 at UWA

## Who?

This training is open to teachers interested in bringing robotics and/or drones into their classroom.

## Where?

University of West Alabama - Lyon Hall, C-101

## Why?

This training will give teachers the confidence and knowledge to integrate robotics into their classroom which provides hands-on STEM learning with standards-aligned curriculum.

## What?

One or two-day trainings that include how to build with the platforms, programming the robot, and activities and lessons to integrate the robot into grade level content standards and Alabama DLCS.

## Cost?

Registration is free for invited teachers. This PD may include free equipment; but registration does not guarantee equipment due to limited quantities.

**When?** Each training will take place from 8:30 am - 3:30 pm

**codrone<sup>EDU</sup>**
