

Subject: Testing available for UWA employees prior to spring semester
Date: Friday, December 11, 2020 at 2:25:59 PM Central Standard Time
From: UWA Public Relations
To: Faculty - On Campus, Staff - On Campus
Attachments: image001.png

Upon our return for the Spring 2021 semester, COVID-19 testing will be available for all UWA campus employees who wish to participate through our ongoing partnership for Sentinel Testing with the statewide collaborative. If you have not already [registered with Verily](#), please take a moment to register using your UWA email address at your earliest convenience.

- Only those who are registered through December 27, 2020, will receive follow-up instructions from Verily to schedule a testing time.
- Tests will be administered January 7, which is the day after the University re-opens from the holiday break.
- There is no need to attempt to schedule an appointment immediately upon registering. Invitations to schedule a test will be sent December 31 through January 3 to those who registered by deadline.

Through this continued asymptomatic testing, we can continue to strive for a healthier, safer environment for all, and your commitment is very much appreciated. If you have questions, please contact Robert Upchurch at rupchurch@uwa.edu.

timeline for employee testing

NOW - DECEMBER 27 Registration open at healthy.verily.com

DECEMBER 31 - JANUARY 3 Email invitations to schedule test are sent

JANUARY 6 UWA employees return to campus from holiday break
